

# Spring Cleaning

As spring is now upon us, it is important to take the time to inspect and refresh our exteriors which have been weathered by the harsh winter.

- Inspect all exterior surfaces for cracking or separation of asphalt/tile/pavement. Repair/re-seal as necessary.
- Inspect all painted surfaces — i.e., curbs, bumper blocks, road signage. Re-paint using approved traffic paint.
- Inspect all foliage for any overgrown or dead branches that may become a hazard to customers or property. Trim or remove as necessary.
- Inspect all light fixtures and replace any burned-out bulbs.

A significant number of slip/trip and fall claims occur outside. Following these basic steps should result in less accidents.
