

Real Estate Legal Indemnity Insurance

Many of the frustrations that emanate within a property transaction, refinancing or development can be insured. Gallagher's Legal Indemnity team help deliver competitive and bespoke domestic or global insurance solutions to mitigate risk, allowing for smooth transactions.

The function of Legal Indemnity insurance is to protect against the risk of third party claims arising from a legal defect or challenge to the ownership or development of assets. These risks are usually discovered during the due diligence process and need comprehensive personalised policies that provide solutions in short time frames.

Title Defects

- Restrictive covenants
- Easements
- Possessory title / adverse possession
- Transfer at an undervalue.

Planning Defects

- Lack of discharge of Section 106
- Lack of Section 104 agreement
- Lack of planning permission or building regulations.

Other Defects

- Lease defects
- Judicial Review
- Search indemnities.

Rights of Light

Insurance can be provided when a development infringes the light of neighbouring properties. Policies can be structured in a number of ways:

- **Agreed Conduct** - policy allows the approach of neighbours to negotiate a settlement to extinguish their rights to light
- **Wait and See** - affected properties are not approached to negotiate a settlement
- **Combination of Agreed Conduct and Wait and See**
- **Known Risks** - if there has been a challenge to the development regarding rights of light, cover may still be available.

Title to Shares and Real Estate

Title to Shares and Real Estate can be offered, to competitively cover, the full enterprise value within a corporate transaction as these risks are generally binary. Coverage is generally wider than fundamental warranty cover and includes:

- The seller not being the legal owner of the shares / property
- Mortgages existing against the shares / property
- Third parties claiming better ownership of the title to the shares / property.

European and Rest of World Risks

Coverage for all title risks across Europe and globally, including:

- Lack of or non-compliance with building permits
- Easements against or benefitting the property
- Restitution risk
- General title to real estate coverage.

Portfolio Title Insurance

We can arrange cover for all unknown risks that property titles may be subject to. This is particularly useful when acquiring or refinancing a large portfolio, often with multiple title deeds and plans. Insurers will accept a sample of due diligence (sometimes none at all or they can undertake their own diligence). Cover can then be provided for identified issues.

What is covered?

The majority of policies can cover the following*:

Court costs and out of court settlements

Loss in the market value of the property

Defence costs, legal fees and other expenses

Abortive costs of works and alteration, demolition and reinstatement of a property

Professional fees associated with the above.

Additional covers include:

Delay costs

The costs associated with the suspension of works pending a court order or resolution of a claim

Business interruption

Loss of rental income and service charges in the event of an injunction

Re-location costs

Costs of relocating tenants in the event of an injunction or court order pending resolution

Interest on loans or fees associated with early

termination Where financing is in place, fees and interest can mount up particularly if there are delays

Service provider costs

Utilities and other services can be covered by the insurer if there is a delay in a development due to the defect.

* Limits and exclusions may apply, please see policy wording for full terms and conditions.

Benefits of Legal Indemnity insurance*

Legal Indemnity insurance can assist with ensuring that a transaction, development or refinancing proceeds by providing comfort that there is recourse against a financially stable insurance company in the event that a claimant comes forward. This enables lenders, purchasers and tenants to mitigate the risks associated with the ownership and use of an asset with a timely and cost effective solution.

Applying to the relevant authorities to eradicate these risks can take a long time and halt a transaction, particularly in a bidding situation. Indemnity insurance can be implemented very quickly, allowing the acquisition / disposal to proceed.

About Gallagher

Gallagher's Legal Indemnity team are experienced with working to tight timescales, delivering complex transactions and developments. Our clients include law firms, property owners and developers. The team understand the complex nature and the significant impact on the future value of a property associated with these risks.
