

HOW TELEMATICS CAN IMPROVE YOUR BOTTOM LINE

Utilizing technology can help you save valuable time, reduce costs, save valuable time and increase driver safety.

Insurance | Risk Management | Consulting

REDUCE PAPERWORK AND INCREASE PRODUCTIVITY

Despite the ELD mandate's December 2019 deadline fast-approaching, many organizations are still manually processing driver logs.

4.2 million+*
Drivers filling out paper logs on a daily basis

110 hours*
Time saved by removing manual paperwork annually for drivers

COMBAT RISING PREMIUMS

From 2017-2018, premium costs for commercial auto insurance increased an average of

74%*

WASTE LESS FUEL AND REDUCE ACCIDENTS

Despite the ELD mandate's December 2019 deadline fast-approaching, many organizations are still manually processing driver logs.

43%*
Reduced fuel costs

26%*
Reduced the number of recorded accidents

COSTS OF IDLING

Many trucks spend anywhere from
4-8 hours*
sitting at idle

This costs businesses
\$5,000-12,000*
per year, per truck
